

How Can I Check Company Name on MCA and Get My Udyam Registration Certificate Easily?

Introduction

When starting a new business, the first question that comes to mind is — *“How can I check if my company name is available on the MCA portal?”* and *“How do I get my Udyam Registration Certificate for MSME benefits?”*

As a business consultant at Taxlegit, I often guide entrepreneurs through these simple yet important steps. Registering your company name and obtaining the Udyam Certificate ensures legal recognition and helps your business grow smoothly with government benefits. Let's understand both processes step-by-step.

H1: How to Check Company Name Availability on MCA?

Before registering your company, it's important to check if the desired name is available on the **Ministry of Corporate Affairs (MCA)** website. The MCA portal allows you to search and confirm whether your proposed business name is unique or already taken.

H2: Step-by-Step Process to Check Company Name on MCA

1. Visit the MCA Website

Go to the official MCA Portal. On the homepage, look for the “MCA Services” section.

2. Select 'Check Company Name' Option

Under the “Company Services” tab, click on the ‘[Check Company Name MCA](#)’ link.

3. Enter the Proposed Name

Type your desired company name in the search box. Make sure you do not include special characters or extra spaces.

4. View the Results

The system will display existing company names similar to yours. If no matches are found, it means your name is available for registration.

H2: Tips for Choosing a Unique Company Name

- Always choose a name that reflects your business activity.
- Avoid using generic words like “India,” “Global,” or “Corporation” unless necessary.
- Do not use names that resemble registered trademarks or existing companies.
- Keep your company name short, simple, and memorable.

At Taxlegit, we help our clients check company name availability, reserve names on MCA, and handle documentation for Private Limited, LLP, and OPC registrations without any hassle.

What is a Udyam Registration Certificate?

After your business name is approved and registered, the next important step is to get your **Udyam Registration Certificate**. This certificate officially recognizes your business as a **Micro, Small, or Medium Enterprise (MSME)** under the Government of India.

The Udyam Certificate helps you avail **government subsidies**, **bank loans at lower interest rates**, and **priority in tenders**. It is issued online through the **Udyam Registration Portal** using your Aadhaar and PAN details.

Process to Get Udyam Registration Certificate Online

Enter Your Aadhaar Number

Provide the Aadhaar number of the business owner or authorized signatory.

1. Fill in Business Details

Enter details such as business name, type of organization, PAN, and bank information.

2. Select the NIC Code

Choose your business activity based on the National Industrial Classification (NIC) code.

3. Submit and Verify OTP

After submission, verify using OTP sent to your registered mobile number.

4. Download Udyam Certificate

Once approved, you can download your Udyam Registration Certificate instantly.

5.

Benefits of Udyam Registration Certificate

6.

- Access to MSME government schemes and financial aid.
